FORTY-SEVENTH REPORT

OF

THE BOARD

FOR THE

PROTECTION OF THE ABORIGINES.

PRESENTED TO BOTH HOUSES OF PARLIAMENT BY HIS EXCELLENCY'S COMMAND.

By Authority:
J. KEMP, GOVERNMENT PRINTER, MELBOURNE.

MEMBERS OF THE BOARD FOR THE PROTECTION OF THE ABORIGINES.

The Honorable the Chief Secretary, Chairman.

W. A. Callaway, Esq., J.P., Vice-Chairman.

Mrs. Anne F. Bon.

W. D. Beazley, Esq., M.L.A.

The Honorable James A. Boyd.

The Honorable E. H. Cameron, M.L.A.

T. Livingston, Esq., M.L.A.

J. H. MacFarland, Esq., M.A., LL.D.

J. P. Wilson, Esq., M.A., LL.D.

WM. J. DITCHBURN,
Acting Secretary.

Melbourne,
29th November, 1911.

APPROXIMATE COST OF REPORT.

Preparation—Not given.	£ . .
Printing (400 copies)	<u>6 0 0</u>

R E P O R T.

Melbourne, 29th November, 1911.

MAY IT PLEASE YOUR EXCELLENCY.

The Board for the Protection of the Aborigines have the honour to submit for Your Excellency's consideration their Forty-seventh Report on the condition of the aborigines of this State, together with the reports from the managers of the stations, and other papers.

Mr. W. E. Morris, who was appointed a member of the Board on the 5th January, 1888, resigned that office in March, 1911. For many years prior to his appointment he had been actively interested in the welfare of the aborigines, and his retirement after 23 years' service is much regretted by the Board. The vacancy has been filled by the appointment of Dr. J. P. Wilson.

The number of aborigines and half-castes who have been maintained or partly provided for during the year ended 30th June, 1911, was 252, as follows:—

Locality.	Blacks.	Ha'f-castes.	Total.
Coranderrk	34	20	54
Lake Condah	31	14	45
Lake Tyers	56	20	76
Antwerp	2	1	3
Framlingham	3	36	39
Koondrook	—	1	1
Lindenow	1	5	6
Mildura	3	4	7
Stratford	1	7	8
Swan Hill	3	2	5
Walgunyah	2	—	2
Colac	—	6	6
Total	136	116	252

The numbers on the 30th June, 1911, were 156 aborigines and 100 half-castes.

Licences have been granted or renewed, permitting 26 half-castes to reside and be maintained on prescribed stations.

The returns of births, marriages, and deaths were as follow:—

Station.	Births.	Marriages.	Deaths.
Coranderrk	—	2	8
Lake Condah	1	1	—
Lake Tyers... ..	6	—	2
Depôts	—	—	7
Totals	7	3	17

The deaths included 15 blacks and 2 half-castes.

The following table shows the ages (approximately) of those who died during the year:—

Under 1 year	1
Over 1 year and under 5 years	2
" 5 years and under 21 years	1
" 21 " " 40 "	4
" 40 " " 60 "	7
" 60 years	2
Total	17

A tabulated statement showing the amount expended in administering to the wants of the aborigines for the past twenty years is appended:—

STATEMENT OF AMOUNTS VOTED BY PARLIAMENT, OF REVENUE RECEIVED, AND OF NET COST OF BOARD FROM 1892 TO 1911.

Year	Amount Voted.			Amount Expended.			Unexpended Vote.			Revenue from Sale of Produce, &c., paid into Treasury.			Net Cost of Board.

1910	4,278	0	0	4,226	0	0	52	0	0	—	—	—	4,226	0	0
1911	4,681	0	0	4,295	0	0	386	0	0	—	—	—	4,295	0	0

* Including special vote of £1,000 for buildings, of which only £734 had been expended.

† Including revote of £266 for buildings.

** The revenue from Coranderrk is now received and expended by the Board.

The revenue received from the sale of produce is shown in Appendices V. and VI.

The areas of land reserved for the use of the aborigines are as follow:—

	Acres.
Coranderrk	2,400
Lake Condah	2,050
Lake Tyers	4,000
Colac	20
Framlingham	548
Lake Moodemere	21
	<u>9,039</u>

Except at Coranderrk, where there were several deaths from phthisis, the health of the people at the Stations and Dépôts has been good.

I have the honour to be,

Your Excellency's most obedient Servant,

W. A. CALLAWAY.

Vice-Chairman.

His Excellency Sir John Michael Fleetwood Fuller, Baronet, K.C.M.G.

APPENDIX I.

Aboriginal Station, Coranderrk,
22nd August, 1911.

SIR,
I have the honour to forward you the Annual Report of this Station for the year ending 30th June, 1911.

1. The number of aborigines attending the Station during each month and the daily average attendance was as follows :—

1910.				1911.			
	Highest.	Lowest.	Average.		Highest.	Lowest.	Average.
July ...	64	61	61 $\frac{2}{3}$	January ...	58	52	56 $\frac{2}{3}$
August ...	64	60	62 $\frac{1}{3}$	February ...	59	51	55 $\frac{2}{3}$
September ...	64	59	61 $\frac{2}{3}$	March ...	54	47	52 $\frac{2}{3}$
October ...	61	56	58 $\frac{2}{3}$	April ...	53	49	50 $\frac{2}{3}$
November ...	58	57	57 $\frac{2}{3}$	May ...	54	48	51 $\frac{2}{3}$
December ...	61	58	51 $\frac{2}{3}$	June ...	55	51	53

2. Marriages :—

Date	Name.	Colour.	Condition.
27th July, 1910 ...	John Terrick ...	Black ...	Widower
	Ellen Darby ...	Black ...	Widow
27th October, 1910 ...	Alexander Mullett ...	Black ...	Bachelor
	Violet Manton ...	Black ...	Spinster

3. Births :—

Date.	Sex.	Name.	Parents' Names.	Colour
23rd July, 1910 ...	Male	Samuel Richard ...	{ William Rankin ... Mena Rankin ... }	Half-castes

4. Deaths :—

Date.	Name.	Sex.	Cause of Death.	Colour.	Age.
12th July, 1910 ...	Bella King ...	Female	Tuberculosis Glossitis ...	Black	26 years
1st October, 1910 ...	Albert Carl Darby ...	Male	Pulmonary Tuberculosis ...	Black	19 "
1st December, 1910	Frank Blair Harrison ...	Male	Bronchitis; Catarrhal Pneumonia ...	Black	1 year
28th January, 1911	Ned McLellan ...	Male	Chronic Alcoholism; Exhaustion ...	Black	59 years
4th February, 1911	Laura Gibbs ...	Female	{ (1) Pulmonary Tuberculosis (2) Tubercular Laryngitis }	Black	40 "
28th March, 1911 ...	Lizzie Harrison ...	Female	Tuberculosis ...	Black	27 "
18th May, 1911 ...	Isaac Keefe ...	Male	Congestion of Lungs; Heart Failure	Black	26 "
18th June, 1911 ...	Ruby Hamilton ...	Female	Tubercular Peritonitis ...	Black	8 "

5. Religious services are held every Sunday morning, alternately by the Rev. James Spittal and myself. Sunday school is conducted every Sunday afternoon by Mrs. Robarts and myself, and service of song in the evening. A short service is held every morning during the week, except for a few weeks in the middle of winter. On the whole the services are well attended.

6. The children of school age (six in number) attend the Badger Creek State school, about 1½ miles distant from the Station. They are accompanied to and from school daily by one of the native men. Some of the half-caste children make fair progress, but the others make very little headway.

7. The land reserved for the use of the natives is 2,400 acres, the greater part of which is in five large grazing paddocks. The balance is sub-divided into eight paddocks, varying in size from 3 to 20 acres. The smaller paddocks are used for growing the various crops required for the use of the Station. Ten acres were under oats, for hay, from which about 10 tons of hay were harvested; 4 acres were planted with potatoes, but the yield was light owing to "Irish Blight;" 1 acre was sown with pumpkins, which yielded about 6 tons. Thus, with an acre of various other vegetables, the natives have enjoyed a liberal supply throughout the past nine months, and have a good supply still on hand. The 5 acres of hops have been dug out and destroyed, they having outlived their usefulness.

8. About 12 cows are milked daily for the use of the Station. During the summer months, when there is plenty of grass, and the cows are in full milk, the milk is separated and butter made and distributed among the people. There have been killed for meat—1 cow, 6 heifers, 27 steers, 1 pig; total, 35. Meat is given out twice weekly; each adult receives 1 lb. per day, and children a small allowance according to age. The stock on the station consists of the following :—71 cows, 18 calves, 49 heifers, 59 steers, 2 bulls, 12 horses, 8 bullocks, 1 pig; total, 220.

9. The number of buildings is 29, inclusive of Manager's house, church, school-room, hop kiln, and outbuildings. The outbuildings are very old, and require a good deal of attention to keep them in order. The cottages are in fair order, and are kept clean and tidy. The women scrub them out every week with a solution of phenyle. My wife inspects the homes regularly and instructs the women in domestic and health duties, and finds that some of the women take a special interest in their homes. The introduction of the Raffia basket-making has been very successful; a number of the women make these baskets and find ready sale for them.

10. During the year the natives have erected 2 miles 69 chains of new boundary fences. With the assistance of an outside labourer, 7 miles of old boundary and sub-division fences have been lifted, and 3 miles 61 chains of sub-division fences re-erected. The carpenter on the Station has made eighteen large gates (for entrance to paddocks) and a number of small ones for the front of the cottages. With these improvements the Station has the appearance of order, and are a great advantage to the general working of the Station.

11. The natives do very little hunting, but I encourage them to go out occasionally to lessen the output of meat, as well as to reduce the rabbits. They receive a liberal supply of everything, and on the whole are contented and happy. There has been a good deal of sickness during the year, resulting in a number of deaths, mainly due to tuberculosis. The amount of sickness and many deaths that have occurred have been a heavy strain on us, especially on my wife, who attends to the sick and provides many comforts so much needed in that slow and lingering disease. I am pleased to say at present there is no further sign of it.

12. The general conduct of the people has been good to very good. A few of the men occasionally get a little drink when they go to the village; they are, however, slowly overcoming the bad habit. A Football Club has been formed on the Station, which gives all the people a great amount of pleasure and enjoyment. I always accompany them whenever they meet the other clubs, and they are content to come home instead of mis-spending their Saturday evenings in the township. The school room is lit up nearly every evening for games, club swinging, ball punching, dancing, &c. This gives them a pastime during the long evenings, keeps them out of mischief and from seeking pleasure elsewhere.

13. In conclusion, and on behalf of the natives, I desire to thank the Board for the liberal supply of rations, clothes, medical and other comforts necessary to their general welfare. All the supplies have been satisfactory and of good quality. I also wish to express my sincere appreciation of the confidence which the Board have shown me, in supporting my recommendations for the improvement and better working of the Station.

I have the honour to be,

Sir,

Your obedient servant,

C. A. ROBERTS.

The Secretary, Board for Protection of Aborigines, Melbourne.

APPENDIX II.

Mission Station, Lake Condah,
Milltown, 24th August, 1911.

SIR,

In compliance with your notice, I herewith forward my Annual Report with regard to the management and condition of this Station and the aborigines under my care.

1. The daily attendance for each month during the year was as follows :—

Daily Average.			Total.	Daily Average.			Total
July ...	49	...	50	January ...	43	...	44
August ...	48	...	50	February ...	43	...	44
September ...	49	...	50	March ...	44	...	45
October ...	48	...	50	April ...	44	...	46
November ...	45	...	46	May ...	43	...	46
December ...	44	...	45	June ...	44	...	45

DEATHS.

Nil.

MARRIAGES.

Date.	Names.	Condition.	Colour.
29th October, 1910	James Young ... Bessie Johnson ...	Widower ... Widow ...	Half caste Half-caste

3. In addition to the usual church services held twice every Sunday, as well as Sunday school and daily prayers, which were all well attended, special classes were held for candidates for confirmation, and eight of the natives were presented to the Bishop of the Diocese to be confirmed when he visited this district.

A remarkable taste for music is manifesting itself among the young, so that we have no fewer than six girls who can play the hymns at prayers. At the same time, we do not lose sight of the more useful and necessary lessons regarding all sorts of work—for the girls learn household duties, and even the small boys do light work after school hours.

The Coronation Day of His Majesty King George V. will not easily be forgotten by our people. We held church service as it was appointed, and enjoyed all the festivities in connexion with this most important and happy event; for, as the Board kindly gave a liberal grant for this purpose, young and old were all made happy at the time.

4. The day school is carried on under the Department of Public Instruction, and the pupils make fair progress with their lessons.

5. The total amount of land belonging to the station is 2,050 acres. All is fenced in with post and wire fence, and about 500 acres are enclosed with wire netting; but as most of the fencing had been done under my supervision many years ago, a good deal of it is undergoing repairs now. The reserve is divided into ten paddocks, viz., five grass paddocks of different sizes, and five for cultivation.

6. The orchard yielded a good supply of all kinds of fruit for our people, but the trees are getting old, and many require replacing with new ones. The garden provided a good supply of various kinds of vegetables for all on the station. The 15 acres under crop for hay turned out remarkably well, and we have still a good supply of dry feed on hand for stock. The same paddock is again under cultivation, and promises a fair return in due time.

7. The number of cattle, sheep, and horses on hand on 30th June was as follows:—46 cows, 48 calves, 25 heifers, 17 steers, 1 bull, 109 ewes, 93 lambs, 50 wethers, 2 rams, 8 horses.

Any family willing to milk a cow can have one at any time, and when milk is plentiful the milkers, the old people, and the sick are supplied with butter.

We had a good clip of wool from the sheep, and sold a number of steers, also some wattle-bark; but as the financial statement does not come within my province, the return from this will be given elsewhere. A number of our cattle and sheep were killed for meat for the natives.

8. The number of buildings is still the same as last year, viz., 23, inclusive of church, school, mission-house, store, &c. As new fences are required for the gardens in front of the houses, a commencement has been made to replace the old ones with new ones.

9. The health and conduct of the people were good. The men were employed in shearing, stripping bark, hay-making, gardening, stock-riding, repairing fences, wood-cutting, milking, and keeping buildings, &c., in repair. The women attend to their household duties, and the girls, who are under my wife's training, are taught all kinds of domestic work. The people are taught to keep themselves in health and habits of cleanliness, and the children are examined regularly every Monday morning to see that their bodies and garments are clean. Each child receives a warm bath at least once a week.

10. The natives still retain their love for hunting and fishing. They make a little extra money by selling fox and rabbit skins, and do good work in destroying these pests.

11. I am thankful to report that we have not had any case of drunkenness on the Station, and indeed have very little cause of complaint about this for a great many years past.

12. A few half-castes are here under licences, but as they are good workers they are a help as regards the work on the Station.

13. Supplies of clothing and rations were of good and suitable quality, and all that was needful for the comfort and welfare of the natives has been granted by the Board for the Protection of the Aborigines, and I desire on behalf of our people to express my best thanks for all that has been done for them.

I have the honor to be,

Sir,

Your obedient servant,

J. H. STÄHLE.

The Secretary, Board for Protection of Aborigines, Melbourne.

APPENDIX III.

Aboriginal Station, Lake Tyers,
23rd August, 1911.

The Secretary, Board for Protection of Aborigines, Chief Secretary's Office.

SIR,

In compliance with your request, I have the honour to forward you my Annual Report for the year ending 30th June, 1911.

1. The number of aborigines who attended the Station was as follows:—

1910.			1911.		
	Highest.	Lowest.		Highest.	Lowest.
July ...	65	65	January ...	71	69
August ...	68	67	February ...	73	70
September ...	72	72	March ...	72	66
October ...	74	72	April ...	67	66
November ...	74	73	May ...	62	61
December ...	75	68	June ...	65	63

Daily average 60·90.

Date.	Sex.	Name.	Parents' Names.	Colour.
24th July, 1910 ...	F	Claudine Kathleen ...	{ Thomas Scott ... Martha Scott ... }	Black
2nd August, 1910 ...	F	Bertha Matilda ...	{ Charles Green ... Lydia Green ... }	Half-caste
18th October, 1910 ...	F	Lorna Agnes ...	{ William Johnson ... Maggie Johnson ... }	Black
23rd January, 1911	F	Nora Florence ...	{ Edward Foster ... Rose Foster ... }	Half-caste
6th April, 1911 ...	F	Emmie Mary Elizabeth	{ Bertie Stephen ... Polly Stephen ... }	Black

There have been no Marriages.

3. The usual religious services have been held by the Rev. John Bulmer on week days and Sundays. The attendance has been fair.

4. The Day school is under the Department of Public Instruction. The Teacher appointed by the Department states that the results are fairly satisfactory.

5. The Reserve consists of 4,000 acres. It is enclosed by a boundary fence, posts and wire, and about 1,000 acres are enclosed by wire netting. There are seven paddocks, all of which are now ring-barked and improved for grazing; about 14 acres are cultivated; 7 acres are under rape, lucerne, &c., and 3 acres are used for growing potatoes and other vegetables for the use of the station; 4 acres are planted with fruit trees. The whole of the produce grown is consumed on the Station.

6. The stock on the Station consists of 16 cows, 3 calves, 4 heifers, 61 steers, 8 bullocks, 1 bull, 39 ewes, 12 lambs, 2 wethers, 2 rams, and 4 horses. Twenty-one head of cattle and 103 sheep have been slaughtered, and 3 ewes and 3 lambs died.

7. The number of buildings on the Station is 26, inclusive of outbuildings. The cottages are in fairly good condition and most of the women keep them clean and tidy. The cottages—with the exception of one—are continually inhabited.

8. The employment of the men has consisted of stripping wattle-bark, suckering, ploughing, gardening, stock-riding, wood-carting and keeping the cottages and fences in repair. Some of the women are employed as household servants and all the girls receive instruction in domestic duties, and three or four of them cook very well. The remainder of the women are engaged in attending to their homes and families. The children, when not in school, receive instruction in household work, gardening, &c.

9. The men never hunt for native game now, as they are supplied with a daily ration of beef or mutton at the rate of 1 lb. per head for adults and a smaller quantity for children, according to age. The men and boys hunt rabbits occasionally, but they are not very numerous on the station at present.

10. A few of the blacks take intoxicating drink when they can obtain it, but during the past six months no drink has been brought on to the station by any one, and I am pleased to say that quite recently the majority of them have signed the pledge.

11. No half-castes reside here, except those who have licences.

12. The health of the people during the year has been fairly good; toothache being the principal ailment.

13. The clothing and rations granted by the Board were all of good quality; several of the men were supplied with overcoats which were a great comfort to them during the very cold weather.

In conclusion, on behalf of the aborigines I desire to thank the Board for the liberal supply of everything which has been granted to them.

I have the honour to be,

Sir,

Your obedient servant,

R. W. HOWE.

APPENDIX IV.

Woodford,
23rd August, 1911.

SIR,

In accordance with instructions, I beg to forward the following Report of the state and condition of the blacks at the Framlingham Camp for year ended 30th June, 1911.

1. The number of blacks attending the Station for each month of the past twelve months is as follows:—July, 21; August, 21; September, 20; October, 20; November, 20; December, 21; January, 21; February, 20; March, 21; April, 21; May, 21; June, 21. Total daily average, 21. This includes all half-castes supplied with rations.

2. No births. No deaths. No marriages.

3. Religious instruction is given on the Station every Sunday, and meetings are well attended by adults and children.

4. For secular education the children attend the Purnim State school, about two miles away. In winter the roads are very bad (almost impassable), and the children then attend school very irregularly.

5. The Station reserve contains 500 acres, fenced and watered by the River Hopkins, divided into paddocks, and occupied as follows :—

	Acres.
General reserve	212
Mrs. Lancaster	80
William Good	84
John Wyselaskie	84
Frank Clarke	40
Total	500

The persons named above occasionally take in cattle to graze at various fees from the public, and also milk a few cows for themselves. They sell the milk to the local butter factory. The general reserve is used by the blacks of the Station for grazing their horses thereon, and occasionally by the public, the fees being collected by me, as local agent, and forwarded to the office in the usual way. None of this land is cultivated by the blacks.

6. There are now two cows being milked on the Station. There are also one springing heifer, one calf, and one bull on the Station the property of the Board. The cows are used by the blacks to supply them with milk.

7. There are seven cottages on the Station, all in a fair state of preservation, and all in use. These cottages are kept fairly clean by the occupiers. No stock or produce was sold during the year.

8. The occupation of the blacks and their children has been the same as in former years.

9. The old blacks on the Station are now living soberly, but the half-castes Walter Lancaster, H. Rose, Jas. Arden, and Chris. Austin, usually get drunk whenever opportunity offers, particularly at races and sports meetings. They have made several promises not to again offend, but with the exception of Jas. Arden they have not fulfilled them.

10. All the half-castes coming under the operation of the law are still on the Station under the usual certificates. None of them are apprenticed as servants.

11. The rations and clothing supplied during the year have been of good quality, and have given every satisfaction to the people.

12. The health of the people during the past year has been exceptionally good.

I have the honour to be,

Sir,

Your obedient servant,

M. J. GLEESON,

Local Guardian

The Secretary B.P.A.
