Biographical history note

Dr Luise Anna Hercus (1926-2018) was a German born Australian linguist who worked extensively with Aboriginal communities, predominantly in Central Australia, for over 50 years. She made over 1000 hours of recordings covering over 56 languages and dialects from Victoria, South Australia, the Northern Territory, Queensland, Western Australia and New South Wales.

Throughout her extensive career, beginning as one of the first AIATSIS grantees in the 1960's, and later as a member of AIATSIS Linguistics Advisory Committee, Dr Hercus shaped research into Australian languages. Some of the languages Dr Hercus researched are no longer spoken, and her recordings are considered indispensable to the Communities these languages belong to.

Since being deposited with AIATSIS, copies of Dr Hercus' audio recordings have been provided for many purposes, including academic study and land claims and her audio collection was accepted for inclusion in the Sounds of Australia in 2012.
