CULTURAL SENSITIVITY STATEMENT

It is a condition of use of this finding aid, and of the collection described in it, that users ensure that any use of the information contained in it is sympathetic to the views and sensitivities of relevant Aboriginal and Torres Strait Islander peoples. This includes:

Language
Users are warned that this finding Aid may contain words and descriptions which may be culturally sensitive and which might not normally be used in certain public or community contexts. Terms and descriptions which reflect the author’s attitude, or that of the period in which the manuscript was written, and which may be considered inappropriate today in some circumstances, may also be used.

Deceased persons
Users of this finding aid should be aware that, in some Aboriginal and Torres Strait Islander Communities, seeing images of deceased persons in photographs, film and books or hearing them in recordings etc may cause sadness or distress and, in some cases, offend against strongly held cultural prohibitions.
ACCESS TO COLLECTION

Access and use conditions
Materials listed in this finding aid may be subject to access conditions required by Indigenous communities and/or depositors. Users are advised that access to some materials may be subject to these access conditions.

Copying and quotation
Copying of, and quoting from, unpublished material is subject to the conditions determined by the depositor of the manuscripts. In accordance with the Copyright Act 1968, Section 51, materials are only provided for private study and use.

Obtaining access, copying and quotation permissions
In cases where these permissions are required they must be obtained in writing and must be signed. Further information can be found on the AIATSIS website on the Ordering collection items page. Contact Collections staff for further information.

COLLECTION OVERVIEW

Scope and content note
Records of archaeological expeditions examining pre-contact Indigenous settlement in Australia produced by Rhys Jones and colleagues, including field journals, excavation site drawings and plans, inventories and analytical material, 1963-1980.

Provenance
The bulk of these records were deposited in the AIATSIS Library by Dr Betty Meehan on 17 January 2007 (MAR 07/004). An addition was transferred from the ANU to AIATSIS in November 2015.
Material separated from collection
Site drawings and maps (Series 3) and photographs (Series 4) are held in PC7, drawer 3, except for the following three maps which have been transferred to the outsize maps area at FS6, Unit 1:
MS 5040/3/50, Mungo Man Site 1969;
MS 5040/3/162, Reconnaissance Glacial Map of the Gordon River Basin, Tasmania, Sep 1983;
MS 5040/3/178, Entrance Chamber Cave C1, Judd’s Cave, Cracroft River Valley, Tasmania, Sep 1987.

Four folders of b/w 35mm negatives and contact sheets, received with other records in November 2015, have been transferred to the AIATSIS pictorial section.

Related Material
For a complete list of works by Rhys Jones, including his PhD thesis, Rocky Cape and the Problem of the Tasmanians (MS 582), held by the Library, and for other related material consult Mura®, the AIATSIS catalogue.

For access to audiovisual material contact the AIATSIS Audiovisual Archive.

Important: Before clicking on the links to the catalogue entries please read our sensitivity message.

The National Library of Australia holds a major group of Rhys Jones’ records, including his research and teaching papers, some diaries and field notebooks and records documenting the campaign against the damming of the Franklin and Gordon Rivers. It consists of several accessions received since 2003, amounting to 25.79m, not listed in detail (as at November 2015).

Unprocessed printed materials, off-prints, theses, press cuttings, etc., collected by Rhys Jones, are held in the AIATSIS closed access stacks at Unit 13/Bays A-C, in two deposits, (a) Files A-Z in 45 archives boxes, and (b) unordered off-prints with some original documents, including background material for Rhys Jones’ Wentworth Lecture, 1978 (3 shelf metres).

See also records of Betty Meehan and Sally Brockwell held at AIATSIS.

Archivists note
The arrangement of Rhys Jones’ field journals, site drawings and maps follows the order of the lists provided on transfer of the documents to AIATSIS.

The transfer lists are held in the front of the first box of MS 5040.

Rhys Jones’ journals are arranged in chronological order. Duplicate (photocopied) copies of his field journals are held with the original journals.

The site drawings and maps are arranged by location.
BIOGRAPHICAL NOTE

Rhys Maengwyn Jones (1941-2001), Australian archaeologist, was born at Bangor, Wales in 1941. He studied archaeology at Emmanuel College, Cambridge, where he undertook research on the economies and technologies of Old Stone Age hunter-gatherers. In 1963 he migrated to Australia where he gained his PhD in the Department of Anthropology at the University of Sydney, based on excavations in Tasmania.

In 1969 Jones joined the Department of Prehistory in the Research School of Pacific Studies at the Australian National University where he remained until retirement shortly before his death in 2001. He was appointed Professor of Archaeology in 1993 and in 1996 he held the Visiting Chair of Australian Studies at Harvard. He served on the Council of the Australian Institute of Aboriginal and Torres Strait Islander Studies from 1978 to 1990, and in 1982 was elected Fellow of the Australian Academy of Humanities.

At the ANU Jones' research interests encompassed the human colonisation of the Australian continent, Aboriginal rock art, the extinction of megafauna, and stone tool technology. His field-based research centred on Tasmania and Arnhem Land.

In the early 1970s and subsequently, Jones and Betty Meehan worked with Anbarra people at the mouth of the Blyth River in Arnhem Land. Their combination of archaeological and ethnographic research was published in their jointly edited book, *Archaeology and ethnography* (Canberra: Australian National University, 1998).

In the 1970s and early 1980s, collaborating with Richard (Bert) Roberts on luminescent dating techniques, Jones revolutionised archaeology in Australia, demonstrating human presence in Arnhem Land from 53-60,000 years ago.

From 1979 to 1982 Jones directed an interdisciplinary project in Kakadu National Park in Western Arnhem Land funded by the Australian National Parks and Wildlife Service. The project confirmed the long history of Indigenous settlement in the area and evidenced increased Indigenous population over the last thousand years or so with the appearance of fresh water swamps in the region. The results were published in Rhys Jones (ed), *Archaeological research in Kakadu National Park* (Canberra: Australian NPWS, 1985), which is the basis for archaeological site management in Kakadu.

In the early 1980s Jones initiated the discovery of glacial age occupation of cave sites in the wilderness area of southwest Tasmania and was prominent in the campaign to prevent their drowning beneath the waters of the proposed Gordon–Franklin dam. Though he continued fieldwork in southwest Tasmania for a time, his direct engagement in the island’s archaeology ended with the 1980s.

Rhys Jones died of leukemia on 19 September 2001 and was buried in Bungendore, NSW.
