CULTURAL SENSITIVITY STATEMENT
It is a condition of use of this finding aid, and of the collection described in it, that users ensure that any use of the information contained in it is sympathetic to the views and sensitivities of relevant Aboriginal and Torres Strait Islander peoples.

Language
Users are warned that this finding aid may contain words and descriptions which may be culturally sensitive and which might not normally be used in certain public or community contexts. Terms and descriptions which reflect the author's attitude, or that of the period in which the manuscript was written, and which may be considered inappropriate today in some circumstances, may also be used.

Deceased persons
Users of this finding aid should be aware that, in some Aboriginal and Torres Strait Islander communities, seeing images of deceased persons in photographs, film and books or hearing them in recordings etc. may cause sadness or distress and in some cases, offend against strongly held cultural prohibitions.

ACCESS TO COLLECTION
Access and use conditions
Materials listed in this finding aid may be subject to access conditions required by Indigenous communities and/or depositors. Users are advised that access to some materials may be subject to these access conditions

Copying and quotation
Copying of, and quoting from, unpublished material may be subject to the conditions determined by the depositor of the manuscripts. In accordance with the Copyright Act 1968, Section 51, materials are only provided for private study and use.
Obtaining access, copying and quotation permissions

In cases where these permissions are required they must be obtained in writing and must be signed. Further information can be found on the AIATSIS website on the Ordering collection items page. Contact Collections staff for further information.

Although Manuscripts are not available on interlibrary loan, they may be available via document supply (photocopying), subject to access conditions, if they are already digitized.

COLLECTION OVERVIEW

Scope and contents note

This collection covers a wide range of topics with many different types of documents and formats. It is a collation of Julia Koppe’s personal and professional endeavours starting from 1968 to around the mid-2000s. It holds manuscripts relating to the Van Leer Project, her own personal field research, James Cook University, her involvements in Education and teaching, the Training of Offenders’ Project, the planning of Shalom Christian College, and policy relating to Aboriginal education.

The contents of the collection vary greatly, there are academic articles as well as activities and readings for early childhood. This collection also includes photographs which have not been accessioned by the pictorial collection management unit of AIATSIS.

Provenance

The collection was deposited in the AIATSIS Library by Julia Koppe’s brother, William Koppe in 2010, following the death of Julia Koppe.

Material separated from the collection

Audiotapes and a selection of photographs have been separated from the original Koppe deposit. These recordings and pictures were donated as a whole collection together with the manuscripts, and have been accessioned by the Audio Visual and Pictorial collection management units of AIATSIS.
Audio-visual Material separated from original collection:

KOPPE_J01 - Sound recordings collected by Julia Koppe, 1968-1972
KOPPE_J02 - Sound recordings collected by Julia Koppe, 1975-1994
KOPPE_J03 - Sound recordings collected by Julia Koppe, approximately 1971-2000
KOPPE_J04 - Sound recordings collected by Julia Koppe, 1969-1993
KOPPE_J05 - Sound recordings collected by Julia Koppe, 1976-1994

Pictorial material separated from original collection:

KOPPE.J02.DF – Julia Koppe collection of Cherbourg and Murgon photographs 1983
KOPPE.J03.DF – Photographs of Palm Island Children 1969–1970
KOPPE.J04.DF – Photographs of Palm Island Community 1972-1973

**Archivist’s note**

This collection came to AIATSIS without an apparent original order or pre-existing box list. After compiling a box list, decisions were made to discard any duplicates and establish a series and subseries order based on provenance. Items are rarely dated, so linear order is near impossible to establish. Subject matter and type of document were heavily considered when dividing series into subseries, and some items could be replicated in a number of series, especially in regards to early childhood resources.

A large number of photographs were accessioned by the pictorial collection management unit at AIATSIS and have been arranged, described and captioned by Archivists within said unit independently of the manuscript collection. Researchers and users of Julia Koppe’s material will need to make their own inferences about the relationships between the content in each format.
Biographical/ Administrative Note

Born in 1941 in Brisbane, Julia Koppe grew up attending Toowong Primary school and Brisbane Girl's Grammar. She trained as a teacher specialising in early childhood education at Kelvin Grove teacher training college. Julia also studied anthropology during her teacher training which was aligned to her studies in early childhood education.

Coming from a successful infant teaching background, she was appointed head field officer for the Van Leer Project in 1968. In this position she also became the main writer of the Van Leer Program. Julia developed excellent relationships with the two communities in which the Van Leer Program was developed, Palm Island, and Cherbourg. Even after the Van Leer Program funding was depleted, Julia continued to visit these communities throughout the rest of her professional life, in order to create longitudinal and intergenerational data sets relating to Aboriginal education, employment, and aspirations.

Julia was a pioneer of the asset based teaching approach in Aboriginal education, applying many ideas which would not be adopted for decades to come. Julia realised that focusing on what children could do, rather than focusing on what abilities they lacked, would greatly increase their learning and give them the confidence to apply their language skills. The decision to teach standardised English as a second language or dialect allowed children continue using their mother language or creole without feeling stigmatised or ashamed, while also developing their standardised English used in most schools and universities. Julia also pushed for better student teacher ratios, Aboriginal and Islander teacher aids, and competency training for teachers going into communities.

During the mid-1970s, Julia began teaching at James Cook University (JCU), with her focus being on Aboriginal education subjects. With her fellow colleagues in the school of education, they began offering a Graduate Diploma of Aboriginal Education (GDIAE) and the Aboriginal and Islander Tertiary Aspiration Program (AITAP), which helped increase the number of Indigenous educators in Queensland.

While living in Townsville and teaching at JCU, Julia also helped establish the Education and Training of Offenders Project. This was due to one of her star pupils of the first year Van Leer Project receiving a life sentence in prison at the age of 18. She was also instrumental in helping to set up Shalom Christian College, a community based school in Townsville with an Indigenous focus on education. Julia was consulted regularly whenever an Indigenous education program was being set up in Queensland, and often helped with policy and school development.

She retired in the early 2000s due to an ongoing illness, and died in 2010, in her family home in Toowong, Brisbane.

**SERIES DESCRIPTION**

**MS5161/1**

This series contains the research, publications and supporting material produced by the Van Leer Project, in which Julia Koppe was the head field researcher. The Van Leer Project operated between 1969 and 1976. It was funded by the Van Leer Foundation and administered by the Queensland government. It was the first serious attempt by the Queensland government to improve the education of Indigenous children, this project focused on improving the literacy of Indigenous children starting school and used an asset based approach to teach children English as a second language/dialect. From the initial plan of creating an in-school ‘kit’ to be used for half an hour a day, the Van Leer Project developed into a holistic and all-encompassing approach to literacy education, meant for a child’s first three years of schooling. Two groups of children were chosen from communities which speak a creole of English and an Indigenous language. The two communities chosen were Palm Island and Cherbourg.

The research becomes less rigid and consistent after the first couple of years of the Van Leer Project as Julia Koppe adopted more responsibilities and took up a teaching role at James Cook University. Testing became more sporadic in the later years as Julia only visited Palm Island and Cherbourg communities a couple of times in a year.

**Subseries 1. Testing**

**MS5161/1/1**

This subseries covers the testing of young children by the Van Leer Project and contains the completed tests. Tests include the Illinois Test of Psycholinguistic Abilities (ITPA), Nindethana, Enticknap picture vocabulary (EPV), Hull, Van Leer reading/sentences, grammatical closure, and Peabody Picture Vocabulary Test (PPVT), and sentence fluency.

Starting in 1969, each group of children starting school in both Palm Island and Cherbourg were given a code. This represents what year they began their schooling. The groups were tested over a number of years; therefore PC3 means that the PC group (1969 starters) are being tested in their 3rd year of schooling.

Item 1 within this subseries contains the control group tests, administered in Brisbane in urban primary schools.

Items 3 – 8 within this series are subdivided further. Divided into Palm Island (PC) and Cherbourg (CC) groups, and subdivided into linear order. E.g. 1/1/3/c = Tests taken by
Palm Island 1969 starters in their third year of schooling. These alphabetic divisions apply in items 3 to 8 in subseries 1.

**Item 1** - MS5161/1/1/1 – Control group tests – Tests completed in 1968/9 from Milton and N Harts schools to be used as control sample for testing.

**Item 2** - MS5161/1/1/2 – Blank test sheets, unfilled examples of the tests used in the Van Leer Project

**Item 3** - MS5161/1/1/3 parts A to N – PC and CC groups (1969 starters)

- A = PC1 (1969)
- B = PC2 (1970),
- C = PC3 (1971)
- D = PC4 (1972)

A = PU1 (1974)
B = CU1 (1974)
Subseries 2. Tests Results

MS5161/1/2

This subseries contains the results, graphs, and tables from the Van Leer Project testing. In the results more than one group or community may be represented in a certain graph or table, so attempts to order in linear progression was made but it is unclear at times which graphs represent what group.

Item 1 – MS5161/1/2/1 - results from Palm Island and Cherbourg 1969 starters (PC and CC groups)

Item 2 – MS5161/1/2/2 - results from Palm Island and Cherbourg 1970 starters (PE and CE groups)

Item 3 – MS5161/1/2/3 - results from Palm Island and Cherbourg 1971 starters (PR and CR groups)

Item 4 – MS5161/1/2/4 - results from Palm Island and Cherbourg for all starting groups from 1972-1974. (PS, PT, PU, CS, CT, CU) as well as results from earlier groups ongoing tests.

Item 5 – MS5161/1/2/5 - Field notes and preliminary tabulations of data in small exercise books. Note: many of these books are undated and only partially filled.

Subseries 3. Van Leer Resources

MS5161/1/3

This subseries contains the resources used in the Van Leer Project lessons. Lesson plans, changes to the program and teachers notes are also contained within these files. Field notes and photographs are also included.

Item 1 – MS5161/1/3/1 - Children’s Reading

This item holds the literacy resources used by children in the Van Leer Project

Note: 2 files from this item ‘The young Australian, April 11, 1971’ newspaper, and ‘I am, this is, you are’ reading exercise are held in oversize box number 67

Item 2 – MS5161/1/3/2 - Lesson Plans

Content of Van Leer Project lessons

Item 3 – MS5161/1/3/3 - Notes and Notebooks

Notes about Van Leer Project lessons, notes from participating teachers about how lessons are working for the children, draft changes to lessons, and field notebooks which contain notes on Van Leer content.

Item 4 – MS5161/1/3/4 - Photographs
Photographs of children participating in Van Leer Project, also the photographs which were used to create new content with Aboriginal and Islander focus, so the children could see reflections of themselves in their learning material.

**Subseries 4. Van Leer publications and reports**

**MS5161/1/4**

This subseries contains published material about Van Leer Project. Reports to various governing bodies (e.g. Queensland Government, Department of Education) as well as reports back to Van Leer Project administrators. It also contains the publications produced by the Van Leer Project, which include the lesson plans, literacy strategies and official reports on overall project success.

**Item 1 – MS5161/1/4/1 - Reports**

Reports about Van Leer Project, administration/progression of project.

**Item 2 – MS5161/1/4/2 - Publications**

Material published by Van Leer Project, lesson plans, literacy strategies.

**Subseries 5. Van Leer administration and correspondence**

**MS5161/1/5**

This subseries of only 1 file contains the Administration and Correspondence concerning the Van Leer Project. Correspondence from Project administrators, and correspondence from participating schools in Palm Island and Cherbourg.

**Item 1 – MS5161/1/5/1 - Administration and Correspondence**

**Subseries 6. Supporting Information about communities**

**MS5161/1/6**

This subseries contains information about Palm Island and Cherbourg to contextualise the communities which participated in the Van Leer Project. This includes lists of participating children and their allocated group names, photographs of communities and historical information about Palm Island and Cherbourg.

**Item 1 – MS5161/1/6/1 - Palm Island Children**

Lists of Van Leer Project participants on Palm Island

**Item 2 – MS5161/1/6/2 - Photographs of Palm Island**

**Item 3 – MS5161/1/6/3 - Literature about Palm Island**

This item contains articles, newspaper clippings, community newsletters, and books relating to Palm Island. Note: some of these files could be from later years when Julia Koppe
worked at James Cook University and regularly set up student excursions to Palm Island for Teacher training, many files are not dated.

Item 4 – MS5161/1/6/4 - Cherbourg Children
Lists of Van Leer Project participants from Cherbourg

Item 5 – MS5161/1/6/5 - Photographs of Cherbourg

Item 6 – MS5161/1/6/6 - Literature about Cherbourg
Articles, newspaper clippings, community newsletters, all relating to Cherbourg. Note: Some of these files could be from later years when Julia Koppe worked at James Cook University and regularly set up student excursions to Cherbourg for teacher training.

MS5161/2
This series is a continuation of the Van Leer Project administered by Julia Koppe herself. The Van Leer Project was only funded by the Van Leer foundation up to 1976, but Julia took it upon herself to continue administering tests and developing literacy strategies, in order to create longitudinal and eventually intergenerational data sets. Continuing in both Palm Island and Cherbourg communities, the decision to continue this project was supported by all participating schools and the communities that surround them. The Department of Education also supported the creation of this longitudinal data but did not supply any monetary funding or support. As Julia was working at James Cook University by this time, the testing was less frequent, as she could only travel to each community a handful of times a year. Julia Koppe also started recording information about the families of participants, and documented the progression into adulthood of some of the earlier participants.

MS5161/2/1
Within this subseries, the tests are divided by their provenance rather than in linear order. Files in this collection are rarely dated making it virtually impossible to devise accurate timelines.

Item 1 – MS5161/2/1/1 - Testing, Palm Island
This item contains the completed tests by students on Palm Island during the time of longitudinal studies.

Item 2 – MS5161/2/1/2 - Testing, Cherbourg
This item contains the completed tests by students at Cherbourg during the time of longitudinal studies.
Subseries 2. Results and reports

MS5161/2/2

This subseries contains the results of the ongoing longitudinal testing of Palm Island and Cherbourg children, as well as the reports given to various administrative bodies about the progression of the literacy strategy. This subseries also contains notebooks which contain test results and field notes.

Item 1 – MS5161/2/2/1 - Results

The results of administered tests in both Palm Island and Cherbourg communities. Note: as the administration of the tests were less rigid and frequent, many graphs and data sets are not dated and many notebooks contain what appears to be test results but lack of proper labeling means that this is not conclusive.

Item 2 – MS5161/2/2/2 - Reports

This item contains various reports about the ongoing longitudinal testing of children in Palm Island and Cherbourg communities. These reports are to various bodies e.g. Department of Education, Palm Island and Cherbourg Council, Queensland Education.

Item 3 – MS5161/2/2/3 - Field Notes

This item contains the notebooks kept by Julia Koppe when visiting communities. May contain test results, information about students, and administrative planning.

Subseries 3. Ongoing longitudinal studies administration and correspondence

MS5161/2/3

This subseries contains the administration and correspondence of the ongoing longitudinal study. Letters to/from the communities of Palm Island and Cherbourg, the administration of travel to each community, correspondence from government bodies who are interested in Julia’s research.

Item 1 – MS5161/2/3/1 - Administration

Item 2 – MS5161/2/3/2 - Correspondence

Subseries 4. Ongoing longitudinal studies community information

MS5161/2/4

This subseries contains supporting documentation about the communities in which the study was conducted. Literature, newsletters, newspaper clippings, and pamphlets about both Palm Island and Cherbourg produced during the time of the longitudinal study are contained in this subseries.
Item 1 – MS5161/2/4/1 - Community information Palm Island

Note: Photocopies of school photographs from Palm Island School are oversized and held in oversize box number 67

Item 2 – MS5161/2/4/2 - Community information Cherbourg

Subseries 5. Intergenerational study (1990 – 2001) student information

MS5161/2/5

This subseries contains information about most student participants in the Van Leer and post Van Leer project. Julia Koppe spent over 20 years in contact with both Palm Island and Cherbourg communities. There are various notebooks with general and generational information about some students, their further education, their movement, and their career. Julia also compiled a series of exercise books, one for each student participant in the Van Leer Project. Due to illness Julia’s plan for these books was not executed to the full extent, with almost all notebooks having no content inside. The covers of the exercise books, which state the participants name, group number, and sometimes information about parents and grandparents were kept. Few also contain a picture of the participant as a child.

Item 1 – MS5161/2/5/1 - Intergenerational study

This item contains mostly field notebooks containing lists of students, notes about their progressions in life, where they work, and whether or not they have children. Also included are loose lists of students, and some draft notes about former student information.

Item 2 – MS5161/2/5/2 - Student Information exercise book covers

Front covers of exercise books, one created for each child who participated in the Van Leer Project plus some who participated in the following years in Julia’s continuation of the project.

MS5161/3

While conducting research for the Van Leer Project, Julia began recording interviews with the children and transcribing their speech. Initially this was to gain a better understanding of the children’s use of English, but Julia also began conducting interviews to ask about the children’s perceptions of things such as education, community life, and future aspirations.

This research was later used in Julia’s teaching at James Cook University, and as research for her master’s thesis.

Also included in this series is Julia’s master’s thesis as well as drafts and field notes relating to said thesis.

Julia also independently administered her early interactive literacy project which she conducted at two schools, Shalom Christian College, and an independent community school in Brisbane.
The final part of this series relates to Julia's overseas study trips. Julia went to the USA and collected knowledge about Indigenous teaching and second language learning. Included are travel diaries and various documents relating to Native American language and teaching.

**Subseries 1. Transcriptions of Interviews**

**MS5161/3/1**

This subseries contains the transcriptions of interviews conducted by Julia. Divided by subject matter due to the inability to accurately date the interviews.

Item 1 – MS5161/4/3/1 - Administration and Planning

MS5161/5
This series contains coursework, assignments, administration and correspondence concerning Julia’s coordination of the Education and Training of Offenders Project (EATOP). Julia was inspired to help further the education of the incarcerated due to one of her star pupils from the first year of the Van Leer Project receiving a life sentence in prison at the age of 18. Garnet Mickelo had the highest literacy and numeracy scores of his group in the Van Leer Project, and had kept in contact with Julia throughout his youth. Julia helped to externally enrol the incarcerated, and made recommendations on coursework and learning plans for the prisoners.

Subseries 1. Garnet Mickelo

MS5161/5/1
Item 1 – MS5161/5/1/1 – Correspondence
This item contains correspondence between Garnet Mickelo and Julia Koppe, concerning his wish to further his education as well as personal letters

Item 2 – MS5161/5/1/2 - Notes on Garnet
This item contains notebooks, and newspaper clippings concerning Garnets incarceration and his plan to study while in prison.

Subseries 2. Education and Training of Offenders Project (EATOP)

MS5161/5/2
This subseries contains the administration and correspondence of the EATOP.

Item 1 – MS5161/5/2/1 - Administration of Project
This item includes external enrolment forms, subject lists, and learning plans for prisoners as well as a small number of assignments and course work completed by the participants of the project. There are also a few academic articles about the benefit of prison education programs.

Item 2 – MS5161/5/2/2 - Correspondence
This item contains correspondence between Julia and the wardens of participating prisons, as well as between Julia and the department of education.

MS5161/6

Shalom Christian College (SCC) is an independent community school in Townsville with a focus on Christian education for Indigenous children. Set up in the early 90s, Julia Koppe was involved in planning school curriculum and policy. She also implemented the early literacy project at this school, helping young children create their own story books with accompanying drawings.

Subseries 1. Administration and school program planning

MS5161/6/1

This subseries contains the administrative papers concerning the establishment of the school, its curriculum and its school policies. It also contains student information, copies of rolls, and Julia’s field notes.

Item 1 – MS5161/6/1/1 - AESIP

This item contains the documents concerning the Aboriginal Education Strategic Initiatives Program (AESIP) which was implemented at Shalom Christian College. This program was in conjunction with the state wide plan supported by the Queensland Aboriginal and Torres Strait Islander consultation committee. The aim of this plan was to raise the literacy levels of schools with high Indigenous student population to meet and even exceed state averages in literacy.

Item 2 – MS5161/6/1/2 - Student Information

This item holds information about students at SCC. It contains rolls, teacher comments, principal’s comments, and Julia’s personal notebooks with her own remarks on the students.

Item 3 – MS5161/6/1/3 - Field Notes

This item contains Julia’s notebooks where she drafted school planning, curriculum and testing.

Item 4 – MS5161/6/1/4 - Administration and correspondence

This item contains administrative papers of Shalom school, such as enrolment forms, as well as correspondence between Julia and SCC.

Subseries 2. SCC publications
