Language/Group: Dharawal / Tharawal / Dariwal people (S59) (NSW SI56-9)

Local call number: B M135.55/D1
Personal Author: McDonald, Josephine.
Title: Dreamtime superhighway : Sydney Basin rock art and prehistoric information exchange / Jo McDonald.
Series: (Terra Australis ; 27)
Contents Note: Introduction -- The Sydney Basin - Environmental context -- Social context -- Archaeological context -- The rock art of the Sydney basin -- Excavations at Yengo 1 and Yengo 2 -- Excavation at the Great Mackeral Rockshefster -- Excavations at Upside-down-man -- The contemporaneity of art and deposit -- diachronic variations in the art of the Sydney basin -- Synchronic variation: Sydney basin engraved art -- Regional synchronic variation: shelter art -- Dreamtime superhighway: modelling with a regional style
Annotation: "Presents a thorough and original contextualization of the rock art and archaeology of the Sydney Basin. By combining excavation results with rock art analysis it demonstrates that a true archaeology of rock art can provide insights into rock art image-making in people's social and cultural lives. Based on a PhD dissertation, this monograph is a significantly revised and updated study which draws forcefully on rich and new data from extensive recent research - much of it by McDonald herself. McDonald has developed a model that suggests that visual culture - such as rock art making and its images and forms - could be understood as a system of communication, as a way of signaling group identifying behaviour." -- cover.
Annotation pending.

Personal Author: Wafer, J. (Jim) 1948-

Title: A handbook of Aboriginal languages of New South Wales and the Australian Capital Territory / Jim Wafer and Amanda Lissarrague; with a chapter on contact languages by Jean Harkins
Annotation: "This book provides a guide to the Aboriginal languages of New South Wales and the Australian Capital Territory, and to the current state of information about them. Part A has two main aims: to show (a) which dialects belong together as variant forms of the same language, and (b) which languages belong together as related members of a group; and to provide information about the current state of these languages, and a guide to the resources available for language revitalisation, including a bibliography. It covers 14 language groups, with additional chapters on contact languages, sign languages and terms used in kin classification, as well as two bibliographic appendices: one on placenames, the other based on the work of N. B. Tindale. Part B presents a word-list for each language, with an account of the sources used in compiling it, and an overview of the languages phonology."

Provided by publisher, annotation pending.
