Bibliography on Indigenous Land Management in Australia (2013)

This bibliography was prepared in association with the following report:

Notes: This bibliography was prepared in association with the following report:

Each of the references is followed by a list of keywords. Some of these refer to parts of the analytical framework used for the above report: ILM (Indigenous Land Management) ILM Enablers; ILM Drivers; ILM Barriers; ILM Sectors; ILM Benefits; ILM Risks; ILM Adaptive capacity.

Further information about the meaning of these terms can be found on page 10 of the above report.

We hope the KEYWORDS are of assistance in identifying relevant material for users of this bibliography.

We have also provided weblinks to help you locate sources. While these were all functional when the bibliography was produced in 2013, we cannot guarantee that they are still operational.

KEYWORDS: climate change, observed impacts, indigenous knowledge, assessment, temperature change, impacts, inupiat, alaska

KEYWORDS: ILM Drivers, ILM Enablers, natural resource management, economy, Australia, indigenous

KEYWORDS: Australia, indigenous, natural resource management, ILM Drivers, ILM benefits

KEYWORDS: ILM Drivers, ILM Benefits, Indigenous, conservation values, land, land rights, native title, natural resource management, environment

KEYWORDS: governance environment, Culture, power, intercultural, Institutions, contesting cultural geographies of governance, pastoral, mapping expectations, ILM Enablers
