

Digital evolution and knowledge exchange at the Australian Indigenous HealthInfoNet

Brisbane July 2019

Dr Michael Adams
Dr Neil Drew

Core funding
is provided by the
Australian Government
Department of Health

- I would like to acknowledge and pay my deepest respects to the Traditional Owners, Elders past, present and emerging of the lands on which we meet today the Yuggera and Turrbal people.

Ubiquity of data

- ⦿ We live in the information age.
- ⦿ A vast data ecosystem
- ⦿ 120,000
- ⦿ 50
- ⦿ 174
- ⦿ 86
- ⦿ ‘informavores’

- ⦿ 2005
- ⦿ 17,000
- ⦿ 30,000
- ⦿ 7
- ⦿ 19
- ⦿ 2017
- ⦿ 38,200
- ⦿ 67,560
- ⦿ 42
- ⦿ 40
- ⦿ 1680

The know – do gap!

- The gap between what we know and what we do is far greater than the gap between what we know and what we don't know.

(Bammer, Michaux & Sanson, 2010).

- As the diameter of our knowledge increases, the circumference of our ignorance expands
(Humphries and Vines, 2010)

Key Projects

THE AUSTRALIAN INDIGENOUS HEALTHINFONET

THE ALCOHOL AND OTHER DRUGS KNOWLEDGE CENTRE

HEALING PORTAL

ENVIRONMENTAL HEALTH PORTAL

TACKLING INDIGENOUS SMOKING PORTAL

PALLIATIVE CARE PORTAL

EYE HEALTH

Digital Evolution Strategy 2014- 19

From clearinghouse to knowledge exchange research centre

Implementation Science

- ⦿ ... involves making research and other information available in a form that has immediate, practical utility.
- ⦿ Which is basically about getting the research rubber on the road...

- ◉ Knowledge translation is a **dynamic** and **iterative** process that includes **synthesis**, **dissemination**, **exchange** and **ethically sound** application of knowledge to improve the health of Canadians, provide more effective health services and products and strengthen the health care system.

Canadian Institute for Health Research (CIHR, p.1)

But in cultural settings...

- ⦿ **Homogenising**
- ⦿ **Monocultural**
- ⦿ **Colonial**
- ⦿ **Appropriating**
- ⦿ **Indigenous Framework**

Repeating the sins of
the past?

(Adams et al, 2014; Indigenous Peoples' Health Research Centre, 2005)

*Knowledge translation is **Indigenously led** sharing of **culturally relevant** and **useful** health information and practices to improve Indigenous health status, policy, service and programs.*

Smylie (IPHRC, 2005, p. 19)

The intercultural space

- ⦿ A place of privilege and ... responsibility.
- ⦿ The dual lens...

New art

The artwork featured on our site is very important to us to as we want to represent the diversity of our users and be inclusive of the many Aboriginal and Torres Strait Islander cultures throughout Australia. All artwork is ethically sourced and purchased as well as copyright and used with the written permission of the artist.

A selection of art added to our collection this year includes

This page L-R, top to bottom:

Carried lightly Brian Robinson, Living and Hunting Together by Melanie Robinson, Bush Potato Dreaming by Rene Dixon, Untitled by Robert Nester Mosby

This page L-R, top to bottom:

Mina Mina Jukurpa (Mina Mina Dreaming) by Sabrina Napangardl
Granites, Connections by Mick Adams, Ngapa Jukurpa (Water Dreaming)
- Puyuru by Chantelle Nampijirpa Robertson, Tidal Changes by Melanie Robinson, Communities Gathering to Live as One by Melanie Robinson

Knowledge Production at the HealthInfoNet

Feedback

What our users said:

“Looking for information about Aboriginal and Torres Strait Islander eye health. Couldn’t suggest anywhere better to start your search. Loving the new look.”

The new website looks fantastic! Can’t believe you were able to do it in house – impressive!!

“It is beautiful and affirming.”

I can see that you’ve put a lot of thought into this, as well as the amount of work. You should be very proud of yourselves.

“The changes are fantastic – the information on this site has been critical in advocating for culturally safe practice in the mainstream service sector. Thank you for the thought given to the communication.”

The website is looking so good and it’s so easy to use.

2018 Health Bibliography

We provide a comprehensive repository of resources in our easy to search database. These include journal articles, reports, grey literature, policies and resources. The Bibliography also provides a valuable archive of resources for the sector.

AT THE CONCLUSION OF 2018 WE HAD

34,788

PUBLICATION ENTRIES

CLOSE TO
2,000

WERE ADDED IN
THAT PERIOD.

The screenshot shows the HealthInfoNet website interface. At the top, there is a navigation bar with the logo and menu items: HOME, PRACTICE, ABOUT, CONTACT. Below the navigation bar is a decorative banner with a colorful, abstract pattern. The main content area is titled 'Promote and practice - Publications'. It features a search bar with the text 'What can we find for you?' and a search button. Below the search bar, there is a list of search results. The first result is titled 'The role of the Aboriginal Health Workers in the promotion of health and well-being for remote communities' and is dated 2018. The second result is titled 'A look-outlook on health care: 10 years of public health policy in urban Aboriginal and Torres Strait Islander primary care' and is dated 2018. The third result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The fourth result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The fifth result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The sixth result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The seventh result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The eighth result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The ninth result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018. The tenth result is titled 'A national profile of Aboriginal and Torres Strait Islander Health Workers, 2006-2013' and is dated 2018.

Factsheets

Australian Indigenous Alcohol and Other Drugs Knowledge Centre

Key facts

Alcohol use

among Aboriginal and Torres Strait Islander people

Aboriginal and Torres Strait Islander people are **1.3x more likely to abstain from alcohol** than non-Indigenous people [1]

Aboriginal and Torres Strait Islander people who do drink alcohol are more likely to drink at levels that are dangerous for their health

Health and social impacts: alcohol use can lead to many health and social problems [2]

Physical	Mental	Social
<ul style="list-style-type: none"> organ and brain damage high blood pressure, diabetes or cancer infections liver disease FASD (fetal alcohol spectrum disorder) road accidents 	<ul style="list-style-type: none"> depression and stress mental illness sleep problems suicide 	<ul style="list-style-type: none"> separation from culture and stress unwanted pregnancies money problems violence

Hospitalisation

Aboriginal and Torres Strait Islander people were **hospitalised 4x more** than non-Indigenous people in 2013-2015[3]

Prevention and treatment
Supporting strong communities and families

Increasing the price of alcohol [4]

Effective treatment services need to [5]:

- be community driven
- be culturally safe
- have good ongoing care

Respiratory diseases among Aboriginal and Torres Strait Islander children

Aboriginal and Torres Strait Islander children

1/5 had long-term respiratory conditions 2012-2013

2x

more likely to be hospitalised than non-Indigenous children 2014-15

Conditions of concern

- Acute
- acute respiratory infections
 - Influenza and bronchiolitis
- Chronic
- asthma
 - bronchiectasis

Respiratory conditions that contribute most to the total burden of disease

Upper and lower respiratory tract conditions

Asthma

Risk factors

exposure to tobacco smoke

social and environmental factors (overcrowding and pollution)

low socioeconomic status

low birthweight

poor nutrition

Prevention strategies

Focus on children's lung and general health

Prevent smoking

Reduce environmental exposures

Educate and empower parents/carers

Recommended vaccines

Healthy diet

Improve infant health

Podcasts

Transcript Introducing the HealthInfo Podcast

NEIL DREW:

Hello there. My name is Neil Drew, Director of the Australian Indigenous HealthInfoNet and it's my absolute pleasure to welcome you to the HealthInfo Podcast. This is a series bringing you stories *for* and *about* the Aboriginal and Torres Strait Islander health workforce. I'd like to begin by acknowledging the Traditional Owners of the lands and waters of Australia and pay respect to all Aboriginal and Torres Strait Islander people—their customs and their beliefs. We also pay our respects to Elders past and present, with particular acknowledgement of the Whadjuk people of the Nyoongar nation, the traditional owners of the lands where our offices are located.

In each episode, we'll bring you stories about what's happening across the sector. We'll be chatting with Aboriginal and Torres Strait Islander Health Workers and other health professionals about initiatives contributing to the health and wellbeing of Aboriginal and Torres Strait Islander people and communities. We'll also talk to academics to hear about the latest research. It's our goal in this series to provide you with the information you need for your work, and to share the many wonderful, inspiring and practical stories from across Australia. As part of our ongoing commitment to supporting a strength-based approach to understanding and responding to the challenges you all face in your everyday work, we have an unapologetic bias towards showcasing the many positive examples of work being done by people and communities throughout Australia.

Subscribe in Apple Podcasts or wherever you get your podcasts to make sure you never miss an episode. And if you have an idea for an upcoming show, we'd love to hear about it. Send us an email or tweet us, we're @HealthInfoNet. Episodes start next week.

Webinars

Webinars in 2018 included:

- **Respiratory illnesses in Aboriginal and Torres Strait Islander children: contemporary challenges?**

This webinar featured guest presenters Dr Kerry-Ann O'Grady from Queensland University of Technology and Dr Kerry Hall from Griffith University.

- **The Overview of Aboriginal and Torres Strait Islander Health 2017 and the new responsive website**

- **Finding information and sharing knowledge on the Eye Health Portal**

The screenshot shows the homepage of the Australian Indigenous HealthInfoNet website. At the top, there is a navigation bar with links for HOME, LEARN, PRACTICE, ABOUT, CONTACT, and a search icon. The main header features the organization's logo, a black silhouette of a lizard, and the text "Australian Indigenous HealthInfoNet". To the right of the logo is a tagline: "Helping to close the gap by providing the evidence base to inform practice and policy in Aboriginal and Torres Strait Islander health". Below the header is a large banner with a dark grey left side and a tan right side. The dark grey side contains the text "Looking for something?" and a button that says "Watch our short video to find out how" with a YouTube play button icon. The tan side features a large magnifying glass icon and the text "same great information, only better".
