# Land Tenure Reform Pilots

# Current pilots

# Benefits - Baniyala

The project managers and traditional owners are working in partnership with the Northern Land Council on the proposal to apply for a delegation of land council functions under the *Aboriginal Land Rights (Northern Territory)*

*Act 1976.*

---

## Benefits - Kimberley

This project has identified economic development aspirations of native title groups in the Kimberley (eg, gubinge), and is supported by a clear pathway with the State Government on tenure reform and emerging interests from potential partners.

---

# Outcomes

The land tenure reform pilots measure is generating the following outcomes:

- Showing what can be achieved under existing land administration arrangements.
- Developing an evidence base and guidance that can be used by other groups to achieve their aspirations.
- Demonstrating the value of engagement between government, industry and Indigenous land holders.

---

## New ideas?

- Funding is available for new pilots, which must be completed by 30 June 2019.
- Proposals should focus on Indigenous land holders and deliver practical improvements to their communities.
- Proposals need to demonstrate effective processes and lessons learnt so these can provide guidance and be applied to other communities across the north.
- You should contact the Department's Regional Network on 1800 079 098 to discuss your ideas.
